

Shradha Rai

Data Analytics — SQL — Python — Machine Learning — Data Visualization

☎ +91 7027354777 ✉ shradharai4u@gmail.com 🔗 linkedin/shradharai 🐙 github.com/Shradharai

EDUCATION

SRM Institute of Science and Technology, KTR, Chennai <i>B.Tech, Computer Science Engineering – Specialization: Big Data Analytics</i> CGPA: 9.19/10	2022 – 2026
Gaurs International School, Greater Noida <i>Class 12, CBSE – 92.2%</i>	2021

EXPERIENCE

AI Operations Associate Intern, Deccan.AI Worked on AI model evaluation and benchmarking for large-scale enterprise applications using multimodal text and image data. Reviewed and compared model responses against quality guidelines, identified edge cases and failure patterns, documented evaluation results, and contributed to improving dataset quality through structured annotation and analysis. Collaborated with cross-functional teams to support production AI evaluation workflows.	Dec 2025 – Present
Research Intern, Samsung PRISM, R&D Institute India Worked in a four member research team on microservices observability using logs, metrics, and system events. Read research papers, experimented with different approaches, built analysis pipelines, and evaluated observability techniques for distributed systems. Documented findings, analyzed results, and contributed to improving fault detection and reliability analysis.	Dec 2024 – Jul 2025
Web Development Intern, Accenture Built reusable React components for responsive web applications and worked with a three member development team following Agile practices. Integrated frontend components with backend APIs, fixed UI issues, tested features across browsers, and participated in debugging and performance improvements throughout the development lifecycle.	Jul 2024 – Aug 2024

SKILLS

Programming: Python, SQL, Java, C++, R
Machine Learning: Scikit-learn, TensorFlow, Keras, XGBoost, NLP, Deep Learning, Time Series, Explainable AI (SHAP), LLMs, RAG, Prompt Engineering, OpenAI APIs, Hugging Face Transformers
Data Analysis: Pandas, NumPy, Exploratory Data Analysis (EDA), Feature Engineering, Statistical Analysis
Data Visualization: Tableau, Power BI, Streamlit, Matplotlib, Seaborn, Microsoft Excel
Data Engineering: PySpark, MySQL, MongoDB, FAISS, ChromaDB
Tools: Git, GitHub, Jupyter Notebook, Google Colab
Fundamentals: DSA, OOP, DBMS, Operating Systems, Computer Networks, Cloud Computing

PROJECTS

Spatio-Temporal Risk Intelligence Framework for Road Safety (<i>Python, XGBoost, SHAP, GeoPandas, Streamlit</i>) Developed a district level road safety analytics system for Tamil Nadu using spatial graph modeling and population-normalized risk metrics. Applied XGBoost for fatality risk prediction, integrated SHAP based explainability, performed Monte Carlo simulations for policy evaluation, and built a Streamlit dashboard for visualization and decision support.
RehabitMind Platform (<i>MongoDB, Express.js, React.js, Node.js</i>) Designed and developed a full-stack wellness platform featuring motivational content and interactive assessments. Built REST APIs, designed MongoDB schemas, implemented responsive React interfaces, integrated frontend and backend services, and followed Agile development practices throughout the project lifecycle.

ACHIEVEMENTS & CERTIFICATIONS

Hackathons & Competitions: Smart India Hackathon 2023 (Internal Round, SRMIST); Flipkart GRID 6.0, Myntra Hacker Ramp, Google Solution Challenge 2024, Google Codesprint'23
Research: Contributed to Neural Network-Driven Design and Optimization in Turbomachinery at SRM; Innovation Manager, Cherry+ Network SRMIST
Certifications: AWS ML Foundations, Oracle Foundations Associate, NPTEL (Cloud Computing, Data Science for Engineers), Coursera – IBM Python for Data Science, Unsupervised Learning, Reinforcement Learning
